- *Internal Rates* pertain to all NMR users of the University of Illinois including the Urbana-Champaign, Chicago, and Springfield campuses.
  - *Non-UI Academic* rates pertain to all other schools.
  - *External Rates* pertain to everyone else.
- *Internal Rates* have been computed based on average operating costs and the hours of NMR spectrometer use.
  - *Non-UI Academic* and *External Rates* include additional overhead expenses.
- *NMR Staff Service* pertains to any activity directed to a particular individual for a specified time period. Examples are custom equipment set-ups, data collection, exceptional data analysis, training, or any distinct task outside the norm of routine practice.
- A *Configurational Hold* is an instrument equipment configuration that prevents others from using the spectrometer, but a user would like retained for imminent use. Data collection would not occur during such a hold.

Please direct all questions or comments about NMR rates to the NMR Director.
